To whom it may concern:

I am a mother of a 10 year old boy. Last time when the tent city was near library (close to my home) I was very worried. The tent city was too close to schools and library where a lot kids are. There were drug use/trade going on. As a mother and a long time resident of Sammamish I oppose the decision of hosting homeless tent in Sammamish. Negative influence is not good for our kids.

A worried mom
