Dear Sirs:

I write to express my approval to allow homeless camps in Sammamish. I believe they need to be welcomed and receive food, clothes and basic needs. From what I have learned about the camps, they require adherence to camp rules and any who disobey those rules are not allowed to stay. They need a hand up not more rejection. In an ideal world many of us individual everyday people would provide at least a small amount of their time and talents to improve the lives and productivity of these people that are struggling. We have much to offer and can make a difference. Our family brought Tent City 4 a big hot meal the other day and then a group of us sat down and visited with them. They are human beings too.

Sincerely,
Susan Vossler
Sammamish City Resident since the early 1990's prior to incorporation
